

How to Find Book Reviews

The Tisch Library at Tufts University

Book reviews vary according to the reviewer and the intended audience. Reviews in scholarly journals are likely to include more in-depth analysis and criticism than those aimed at the general public. To find a book review it helps to know when the book was originally published, since reviews usually appear soon after publication. (Ask for help at the Reference Desk for assistance determining a publication date.) Start your search for reviews in resources corresponding to the year the book was published.

Book Reviews in the Catalog

Search by SUBJECT: type the name of the book.

Search by KEYWORD: type the topic and "book reviews," e.g. *American fiction and book reviews*.

Book Reviews in Periodicals (* online at www.library.tufts.edu/tisch/Subject/alpha.htm)

GENERAL AND MULTIDISCIPLINARY INDEXES AND SOURCES
